EXPERIENCE

Full Stack Engineer Intern — Elegance Geo Infotech

Jan 2026 – Jul 2026

Bengaluru, Karnataka, India · On-site · 7 mos

Built a full-stack Employee Management System on the PERN stack (PostgreSQL, Express, React, Node.js):

- Implemented JWT-based authentication with bcrypt password hashing and role-based access control across 6 roles (Root, Admin, Manager, Team Lead, HR, Developer)
- Designed and built 20+ REST API endpoints covering employee records, attendance tracking, leave request/approval workflows, and company announcements
- Built a real-time dashboard with data visualizations (Recharts) surfacing attendance and workforce statistics
- Developed a direct/group messaging feature for internal team communication
- Used Knex.js for PostgreSQL schema migrations and query building
- Built the frontend in React 18 with React Router and Tailwind CSS, integrating directly with backend APIs

Tech: React, Node.js, Express, PostgreSQL, Knex.js, JWT, Tailwind CSS

PROJECTS

J Visual Studio — Live Client Website

Next.js, React, Framer Motion
